Product connection diagram:

Note: Can be used alone, can also be extended KVM keyboard and mouse use. Compatible with KVM series keyboard and mouse extension.

Specification:

The product name		KM extender
Longer distance		300 meters
signal	Product model	KM-300
The connector	The keyboard	USB-A
	The mouse	USB-A
Panel	Power indicator	GEREEN LED
Specifications	Product appearance size (mm)	80mm*35mm*16mm
	The power supply	USB
The environment	Working temperature	0~50°C
	Storage temperature	-20~60°C
	Humidity	0 - 80% RH, No condensation
The shell		plastic

Common faults and maintenance:

1) When the signal has no output, please check:

A: Check whether the power cable is plugged into the device

B: Whether the connection cable is damaged

C: Whether there is an input signal

2) If the POWER indicator is off, the power supply may be abnormal.

3) The keyboard and mouse work is stuck, it is possible that the input and output wire is too long, or the wire loss is too large.

4) Can not be used normally, please check whether there is a quality problem of the connection line.
